📍 Addis Ababa, Ethiopia

Profile

I am a third-year Software Engineering student at Addis Ababa University. I am passionate about programming, especially in problem-solving and working with data structures, and I'm familiar with Python and Java. I value teamwork and am committed to enhancing my skills by working on projects that allow me to apply and expand my knowledge.

Education

2023/02 – 2027/07 **Bachelor of Science in Software Engineering.**
Addis Ababa, Ethiopia *Addis Ababa University*

Projects

To-Do List Application

Developed a command-line To-Do List application using Java, with linked lists to manage tasks efficiently.

- Task Management: Added, viewed, and marked tasks as completed using a custom linked list.
- Dynamic Task Updates: Designed functions to traverse and modify tasks dynamically based on user input.
- Algorithmic Approach: Applied traversal algorithms to search and update tasks efficiently.

Calculator Application

- A simple calculator built using Java Swing for the graphical user interface, where I learned the basics of GUI design and event handling.
- Implemented basic data structures and algorithms to reinforce core Java programming concepts.

Skills

Programming Languages

Python, java

Problem-Solving

Basic experience with algorithms and data structures

Web Development

HTML, CSS, Javascript

Tools

Git, VS Code, IntelliJ IDEA

Soft Skills

Teamwork, Communication

Languages

Amharic

Native

English

Intermediate
